(\$2,000 to win)

FOR IMMEDIATE RELEASE

(By Tyson Graves)

The Summit Racing Equipment American Modified Series closed out its tenth season on Saturday night at Florence Speedway. The Wanna Race 30 was to honor the late Tim Wolfe, the series race director, who lost his life back in September. Thirty-four modifieds filled the pit area at the track just outside of Florence, Kentucky.

In SPEC Racing Engines sponsored hot lap qualifying 34 cars tried to lay down their fastest lap. In Group A it was Nathon Loney who put down the fastest lap of 17.875 seconds to top the charts. In Group B it was Pete Holt who turned a lap of 17.984 seconds. Nathon Loney from Group A would have the fastest overall lap. This set the stage for the four heat races that would begin to determine the nights feature event lineup.

Hypercoils heat race one went to Will Krup from Mount Carmel, IL. Fast qualifier Nathon Loney finished in the second spot. Shawn Brown and the Longhorn Chassis of Eric Wells came home in third and fourth to transfer to the main event.

In the second heat race presented by Willy's Carb & Dyno Adam Stricker picked up the win in commanding fashion. Bryan Barber, the driver from Buffalo, Kentucky, was runner up with Richard Gibson and Shawn Negangard also picking up transfer spots into the nights feature event.

In the Fast Shafts sponsored heat race three Group B fast qualifier Pete Holt came out on top. Second place was two-time series winner Tyler Nicely and third Cole Falloway. The fourth and final transfer to the feature was John Holt Jr.

Final heat race of the night presented by AERO Wheels was won by Trent Green, driver out of Milton, Kentucky. David Webb was second, Chris Cole third and John Clippinger was fourth. The top four drivers all moved on to the nights main event.

It took a pair of pair of B-Mains to set the remainder of the starting field. Independence, Kentucky driver Rick Corbin and Robinson, IL driver Brian Shaw picked up the wins in the 12 lap events. Kenny Carmichael, Sr and Alan Ketchum came home runner up in each race and transferred to the feature event.

After starting on the pole Will Krup took an early commanding lead. Will was the car to beat all feature long. Several drivers tried to challenge Krup throughout the race, but none were successful. In the final laps Will had to maneuver through a couple lap cars that allowed Tyler Nicely to close in. Tyler had started back in the sixth position and quietly put himself in a position to challenge in the end.

Will Krup took home the \$2,000 payday in the Wanna Race 30 and won his second American Modified Series win of the 2020 race season. After his runner up finish Tyler Nicely put the cherry on top and

claimed his second straight series Championship. Trent Green rounded out the top three. Nathon Loney and Shawn Brown finished out the top five. Brian Shaw was the hard charger on the night. After starting back in 18<sup>th</sup>, Brian came through the field to finish 11<sup>th</sup>. He got the \$100 bonus sponsored by Terry from the Dairy Queen in Plymouth, Indiana.
